

# CYBERSPACE

## A Selected Bibliography

**U.S. ARMY WAR COLLEGE LIBRARY**

**May 2013**

## PREFACE

Studies of national security and strategy have extended to the fifth domain—cyberspace. This selected bibliography contains resources discussing cyber acts of war, the battlespace of the fifth domain, governance, jurisdiction, policy, security, strategy, and finally, the technology that is currently being employed.

With certain exceptions, the materials in this bibliography are dated from 2010 to the present. All items are available through the USAWC Library. For your convenience, we have added U.S. Army War College Library call numbers, Internet addresses, or database links at the end of each entry. Web sites were accessed May 2013.

This bibliography and others compiled by our research librarians are available online through the Library's home page at <http://usawc.libguides.com/bibliographies>.

For additional information, please contact the Research, Instruction, and Access Services Branch, U.S. Army War College Library, by sending an e-mail message to [USAWC.LibraryR@us.army.mil](mailto:USAWC.LibraryR@us.army.mil), or by phoning DSN 242-3660 or Commercial (717) 245-3660.
